Studio Rebuild Update

We are in the final phase of the process with insurance to rebuild our studio after the devastation of Hurricane Michael. We knew it would be a long process so over the last year we've taken time to assess the studio's mission, which has resulted in a new brand vision.

With this new brand vision in mind, we've redesigned our studio set and improved our production work-flow. Our new studio will include three unique sets; one for *Catholic in America*, one for *Made for Glory* and another for a future endeavor. The *Catholic in America* set will have a modern look and feel and the program will now focus on addressing topics that are on people's minds. The *Made for Glory* set will continue with the vintage brick look and the third space will have a rustic chic look.

All of us here at **Saint Dominic Media** would like to thank you for your continued support. To stay up to date on the rebuild, visit: SaintDominicMedia.com/Signup
